V.FAMILY & SOCIAL ENVIRONMENT:

17. PEDIGREE CHART: a) Consanguinity: present /absent

b) Pregnant / operated / not operated

c) Age of conception

Male

Female

Mental Handicap

Dead

Abortion

Age & Education

18. Family Structure : 1. nuclear 2. Joint 3. Extended 4. Uni-parent

5. Broken

19. House : 1. Rented 2. Own 3. Official Accommodation

20. Size : 1. Large 2 Medium 3 Small

Adults Children

21. Family history of significant illness

: 1. Nil 2.Mental Retardation 3.Mental illness

4. Epilepsy 5. Congenital deformities

6. Other handicap 7.A.0

(Tick which is appropriate and mention the relationship with the person) Relationship with the affected person

22. Presence of handicap among siblings:

Present /absent

23. If present specify

(Type and care provided)

24. GENERAL EMOTIONAL CLIMATE IN THE FAMILY

Family	4 Over	3 Very	2 Affectionate	1 indifferent	0 Rejection
Members	indulgence	affectionate and			
	and caring	caring	100		
a Father			793		
b Mother			200		
c Siblings	4 Very	3 Affectionate	2 indifferent	1 Rejection	0 Bully and
	affectionate	1.00	10-		Tease
	and caring	(7);			
d Elders		5			
e Younger		*\0			
Ones		· Pr			
f Others		0/			

25. Child's Relationship with the family members:

General Attitude

Family Members	Affectionate and obedient	Quarrel some & stubbed	Quarrelsome stubbed most of the time
Parents			
Elder Siblings			
Younger Siblings			
Others			

26. Persons with whom the child is most attached

27. Persons with whom the child has reportedly more problems

28.

Presence of other problems	Yes	No	Details
Sibling rivalry			
Bullying by siblings			
Unfair comparing by parents			
Less time to parenting due to their pre -			
Occupations			
Strained marital relationship			
Unhelpful attitude of neighbours			
Any other			

29. SOCIAL CLIMATE

a. Relationship with peers: 1.Adequate 2.Indifferent 3.Inadequate 4. Rejected

b. Acceptance by peers: 4. Accepted 3. Indifferent 2. Rejected 1. Teased and bullying

30. SUPPORT SYSTEM

a. General family atmosphere 1. Very congenial 2. Congenial 3. Disturbed

4. Apathetic 5. Pathological

b. Friends & relatives 1. Supportive 2. Indifferent 3. Not supportive

c. Environments Any significant factor that is supportive or not

d. Acceptance of the problem 1.State of shock 2.denial 3.Feeling of guilt shame etc

4. Ambivalent 5.rationalisation 6. Way to acceptance

7. Acceptance

e. Level of adjustment 1.awareness 2.Recognition 3. Search for cause

4. Search for a cure 5. Acceptance of the person

f. Parents knowledge of the problem: 1.Totally unaware 2.less aware 3. Adequately aware 4.well

g. Expectation of parents (as spelt out by parents)

- h. Parents motivation towards the care of the person: 1.adequately motivated 2.need some help 3. Least motivated
- i. Other problems anticipated: 1. Financial 2. Non availability of family members to pay adequate attention for therapeutic intervention 3.distance 4. Family problems 5. Any other

31. ABOUT THE PERSON WITH MENTAL HANDICAP

Any significant observations (How does he/she present himself/herself):

SOCIAL INTERACTION

VERBAL COMMUNICATION:

EXPRESSION

Uses a. Vocalization

b. Words

c. Phrases

d. Simple sentences

e. Complex sentences

NON-VERBAL COMMUNICATION

EXPRESSION COMPREHENSION

Uses a. Sings

b. Gestures

c. Others

a. Sings

COMPREHENSION

b. Gestures

c. Facial expressions

a. Words

b. Phrases

c. Simple sentences

d. Complex sentences

LANGUAGE BACKGROUND:

a. Speech and language stimulation: (Adequate/Inadequate)

b. Uses one/more than one language:

c. Comprehend one/more than one language:

ORAL PERIPHERAL EXAMINATION:

a. Lips appearance Normal

Scars

Repaired/unrepaired cleft

Others

Retraction Normal

Pulls to left/right Doesn't succeed

Others

Protrusion Normal

Pulls to left/right Doesn't succeed

Others

b. Tongue appearance Normal

Fissured

Microglossia Hypoglossia Tongue tie

Movement Normal

With tremors

Deviates to left/right Doesn't succeed

Others

c. Soft Palate Structure Normal

Repaired/unrepaired cleft

Too short

Submucous cleft

Others

Function Normal

Asymmetric elevation
Limited movements

Slow movement

Velopharyngeal Closure Adequate/Inadequate

d. Hard Palate Normal

High arch

Flat

Repaired/unrepaired cleft

Submucous cleft

Others

e. Diadechokinetic Rate Average

> Below average Unsustained

Others

f. Teeth Normal

> Overbite Underbite Others

IMITATION SKILLS:

good/fair/poor a. Gross body

good/fair/poor b. Speech

INTELLIGIBILITY OF SPEECH:

No one can understand his/her speech i)

Only familiar person can understand his/her speech ii)

Strangers can also understand his/her speech iii)

VOICE:

a. Pitch Normal

> High Low

Monotonous Diplophonia Pitch break

Other

b. Loudness Normal

Too soft Too loud Others

c. Quality Normal

Hypernasal Hyponasal Hoarse Harsh Breathy Strangled Others

- a. Breath control intra orally
- b. Maximum Phonation Duration

FLUENCY: Normal

Secondary behaviours during speaking

Stuttering Cluttering

FORMAL TESTING:

READING & WRITING SKILLS:
